

Pot, tray and substrate not incl.

IDEAL FOR GROWING IN OPEN TRAYS FITS TRAYS FROM 30" TO 40" SQ FOR POTS WITH A MAX DIAMETER OF 27"

PREVENTS RISK OF ALGAE GROWTH IN OPEN TRAYS

REFLECTS LIGHT BACK ONTO Plants - Enhancing growth

STOPS EVAPORATION OF NUTRIENT SOLUTION

KEEPS TEMPERATURE STABLE IN

NUTRIENT SOLUTION AND SUBSTRATE

AutoPot PlantSkirt is a light-tight, heat-reflective shield that protects nutrient solution and substrate from temperature fluctuation, algae and debris when growing in large open trays.

Paired with an AQUAvalve it provides a solution for growing even the largest of plants with AutoPot Watering Systems.

Multiple PlantSkirt modules such as this can be connected to a large reservoir

Above: PlantSkirt should be used in conjunction with 30"-40" sq trays. AQUAvalve, AQUAvalve Cover, fittings, pipe, PotSock, pot, tray and substrate not incl.

Using PlantSkirt with AOUAvalve^m and Garden Trays

Combine PlantSkirt with an AQUAvalve and Garden Tray to cultivate even the largest of plants with AutoPot!

Typically you will require:

AQUAvalve Cover 1/4" piping cut to rqd length

AQUAvalve PotSock

(27" ø max

Reservoir of suitable size

PlantSkirt will fit trays from 30" to 40" sq. It accommodates a solid or fabric pot with a max diameter of 27".

Position your pot centrally in your tray.

Fill pot with medium and pot up plants. Water through pot and allow to drain.

Place AQUAvalve PotSock onto the tray.

Place AQUAvalve and AQUAvalve Cover into the AQUAvalve PotSock.

Connect the AQUAvalve to your water supply using 6mm pipe.

The PlantSkirt is secured around the middle of the pot and the outer rim of the tray.

Secure in place with the PlantSkirt's drawstrings.

Once the drawstrings are pulled tight the PlantSkirt provides an effective seal preventing light and debris from entering the tray.
